CONTINUUM OF CARE

Psychiatrist Outpatient/Consultation

An appointment with a Psychiatrist for evaluation, diagnosis, and medication recommendations.

Behavioral Health Medication Management

The prescription, administration, and monitoring of prescription medications being taken by an individual to ensure that the individual is following the medication regimen, and to determine if the medication meets an individual's treatment goals.

Clozaril Support Services

Clozaril is a medication prescribed to treat Schizophrenia. Clozaril Support Services are provided in an outpatient setting by a psychiatrist or nurse to monitor and manage the side effects for individuals taking Clozaril, and includes regular office visits and laboratory tests.

Psychological Testing

Psychologists use tests and other assessment tools to measure and observe behavior to arrive at a diagnosis and guide treatment.

Outpatient Therapy

Individual, group, or family therapy provided in an office setting by an individual or group of individuals who are licensed psychologists, social workers, or credentialed counselors.

Crisis Intervention Services (Mobile, Telephone, and Walk-in)

Crisis services include 24 hour, seven days a week, toll-free telephone hotline services, mobile crisis services, and walk-in crisis services. A mental health crisis is an intensive behavioral, emotional, substance use, or psychiatric situation which if left untreated, could result in an emergency situation requiring placement in a more restrictive setting.

Targeted Case Management (TCM)

Case Managers provide assistance in obtaining and coordinating resources, services, and supports. Individuals meet with their Case Managers in the office or in the community, at least once a month.

Certified Peer Support Specialist (CPS)

A person who uses his or her lived experience of recovery from mental illness plus skills learned in formal training, to provide support in behavioral health settings and the community to help individuals in achieving personal goals for recovery.

Partial Hospitalization Program

Daytime program that provides individual and group counseling as well as medication monitoring or management. The program is provided on a regularly scheduled basis for a minimum of three hours, but less than 24 hours in any one day.

Psychiatric Rehabilitation Services

Service is designed to teach emotional, cognitive, and social skills that help adults diagnosed with mental illness to be successful and satisfied living and working in their communities as independently as possible.

Adult Mental Health Levels of Care from Most to Least Restrictive
Mental Health Inpatient Hospitalization
Partial Hospitalization Services
Psychiatric Rehabilitation Services
Outpatient Mental Health Services
Intensive Case Management (ICM) Targeted Case Management (TCM) Crisis Services
**Certified Peer Support Services are offered in conjunction with all levels of care

HealthChoices and Community Care contract with numerous qualified mental health and drug and alcohol treatment providers in Lycoming and Clinton counties, and there are several ways to access help and support:

If you have problems getting the services you need, contact Community Care Customer Services at 1-855-520-9787. Member Services staff is available 24 hours a day, 7 days a week, every day of the year.
